4000/ATW
AlphaWindow Terminal

Windowing for Today's Applications
Multi-application windowing is now fast, easy, and affordable. The ADDS 4000/ATW Alpha-Window Terminal brings increased productivity without software or hardware modifications. Compatible with existing applications, this world-class terminal gives all the benefits of windowing at an entry-level, text terminal price.

With the click of a mouse or touch of a "hot key", the ADDS 4000/ATW gives you super-fast windows that can be opened or closed, overlapped or tiled, stacked, scaled up and down, panned or scrolled. This text terminal also supports popular features such as icons, pull-down menus, dialogue boxes and scroll bars.

Windowing Standards from a Standard Setter
With the ADDS 4000/ATW AlphaWindow Terminal, you get compatibility with the newest industry standard windowing environment.

The ADDS 4000/ATW is fully compliant with the Display Industry Association (DIA) AlphaWindow terminal specification. ADDS implementation of the standard ensures compatibility with your operating systems, applications, and all other AlphaWindow compliant software.

Made in the U.S.A., ADDS AlphaWindow Terminals utilize a flexible manufacturing system to deliver customized terminals Just-In-Time. A subsidiary of NCR/AT&T, ADDS has been delivering high quality terminals for over two decades and has a base of over two million terminals installed worldwide. The ADDS 4000/ATW is based on over ten years of expert windowing technology developed at AT&T Bell Labs.

Windowing for Enhanced Productivity
Ideal for office environments, database query, telemarketing, customer service, accounting and transaction processing. The ADDS 4000/ATW offers a no-risk, inexpensive path to X-style advantages and productivity at text terminal prices.
