This catalog provides a list of the 92832A software modules and the media on which the software modules are distributed. The purpose of the list is to define the software modules currently supported with the product and to indicate the part number of different media on which these modules reside (if applicable).

Also included is a list of the manuals that are supplied with the software.

You will find several uses for this catalog. For example, you can use it to:

- * Order replacement software on the media type you need.
- * Find the software modules residing on any media type.
- * Determine the names of files on the media directory.
- * Determine the date code of the modules.
- * Determine part numbers of modules.
- * Determine the applicable manuals for your software.

This catalog contains a listing of the modules by file name. The column headings of the list are described below.

MODULE	The unique file name of the software module. The file names are those used in the file directory of any medium.
DESCRIPTION	A concise definition of the software module.
DATE CODE	The software revision of the module.
PART NUMBER	The part number of the software module.
CARTRIDGE #	The part number of the cassette tape cartridge on which the software modules reside.

Other media part numbers:

800 BPI 9-Track magnetic tape	92832-13501
1600 BPI 9-Track magnetic tape	92832-13502
