# Software Directory

*Programs Offered  
by IBM*

*1991 Edition*

**Software Directory**

1991 Edition

**Software Directory**

**1991 Edition**

**This 1991 edition replaces prior versions.**

Programs announced through April 22, 1991 are included in this edition. Prices are current as of June 18, 1991.

References to programs offered by IBM do not imply that they are available in all countries in which IBM operates. The prices are shown in dollars and apply in the United States.

Address comments to IBM Corporation, IBM Software Directory DJ1, P.O. Box 2150, Atlanta, Georgia 30301-9949, or use the Reader's Comments Card in the back of this directory. IBMLink users and IBMers may send an OfficeVision™ or PROFS® note to SWDIR at ATLVM1. IBM may use or distribute information you supply without incurring obligation. You may, of course, continue to use the information supplied. Prices and other program characteristics are subject to confirmation at the time the license commences.

This directory was created using IBM Publishing Systems Master Series solutions.

### **Trademarks**

IBM trademarks are listed preceding the Overview of Sections.

Other companies' trademarks are listed in Appendix B.

---

International Business Machines Corporation

44 South Broadway  
White Plains, NY 10601  
914/288-3000

Dear IBM Customer,

Welcome to the improved edition of the IBM Software Directory. In response to your feedback, we have incorporated significant changes to the directory to enhance its ease of use and enable you to more quickly find the right software for your business.

The 1991 IBM Software Directory is designed to be a quick reference guide for you as you build your enterprise-wide information system. It contains information on over 4,000 programs offered by IBM. Included is everything from the operating systems and communications system programs, which form the backbone of the information system, to the applications, which provide the ultimate solutions to your business requirements.

Use our toll-free number -- 1 800 IBM-CALL -- to obtain further information and to initiate your order for any of these programs. If you prefer, use the Order Card in the back of the directory or contact your IBM representative.

We hope that you find this directory helpful, and we welcome your comments. Send us your feedback and suggestions on the Reader's Comments Card (IBMLink users may correspond with SWDIR at ATLVM1).

We look forward to working with you.

Sincerely,

A handwritten signature in cursive script that reads 'Richard H. Goldberg'.

R. H. Goldberg  
Assistant General Manager  
IBM U.S. Software Marketing

## IBM on Open Systems

In the face of increasing global competition, companies are depending on their information systems for greater efficiencies and cost reduction. Companies require systems that build on their existing assets, extend their capabilities, and link all aspects of an enterprise — the company, its customers, and its suppliers. To meet these customer requirements, a system must be able to connect to any system, running any operating system or application no matter where it resides.

Open Systems is a view of computing that is based on and responsive to customers' needs to access information and applications anywhere through the interconnection/interoperation of heterogeneous networks of systems. Open Systems are designed to provide flexibility between systems from multiple vendors. Open Systems must support the following functions:

- Transparent access to data
- International/industry standards
- Consistent user interface
- Platform flexibility
- Interoperability and portability
- Multivendor networking
- View/print anywhere
- Enterprise systems management
- Remote application access
- Enterprise-wide applications

IBM is fully committed to supporting Open Systems. More than 1,100 IBM employees participate in 1,200 standards activities worldwide. IBM has made significant contributions of program code to serve as a partial foundation of Open Systems Foundations (OSF) products.

IBM's approach to Open Systems is to support formal and de facto standards and to work with the appropriate groups on the development of emerging standards. Our Open Systems direction is based on Systems Application Architecture® (SAA™), AIX® (IBM's version of the UNIX® operating system), and their interoperability, as well as interoperability with non-IBM systems. IBM further recognizes that an essential element of an Open Systems vendor is to provide the services that permit customers to integrate, manage, and expand multivendor systems economically. IBM has centers set up to provide these types of services.

IBM is committed to becoming the Open Systems leader of the 1990s.

---

## Have You Heard About IBM Services?

In today's environment, just having the latest technology isn't enough. The direction you set for your business in the '90s requires that you understand how the impact and use of information technology can contribute to your success.

Your success depends on creating the right environment, winning strategies, complete plans, effective organization, and dependable controls. Then you must execute and follow through.

IBM can help you meet every one of these challenges with services that range from strategic consulting to structuring and managing your entire I/S operation.

IBM Services include:

- Data center design and construction
- IBM and non-IBM equipment maintenance
- Software services
- Application, data, and hardware migration support
- Systems integration
- Network implementation analysis and management
- Business recovery services
- Technical and professional education

. . . and more

IBM Services can help you manage virtually every aspect of your information systems environment at any level you choose. All so you can better manage your resources and focus on what matters most . . . your competitive edge.

To find out more about IBM Services, contact your IBM representative today.

---

# Highlights of Your New IBM Software Directory

## Enhancements you asked for . . . and more

- Formats revised with you, the readers, in mind
- Data presented in more usable fashion
- Fewer pages, more compact
- More flexible binding
- Improved definitions of contents
- Cluster section updated and expanded, giving you more flexibility in finding the right solutions
- Additional information in the program order number section:
  - Dollar signs (\$) so that prices are easier to find
  - Announcement letters for each program and related releases
  - Service end dates by release and modification levels
  - Feature codes to facilitate ordering
- Complete, separate sections for personal computer (PC) programs and Cooperative Software Programs (CSP)
- Part numbers, order numbers, and feature codes for PC programs
- New information in CSP section:
  - Most recent announcement letter
  - Application type
  - Program environment
- Cooperative Software Programs added to Personal Computer Programs and Program Clusters sections.
- Processor group charts – see Appendix C

---

## How To . . .

---

### Obtain More Information

There is more information available to you on many of the products in this directory, such as:

- Announcement letters (IBMLink users may access this information online via InfoLink)
- Selected General Information Manuals
- Brochures

You can also order additional copies of the IBM Software Directory (GB21-9949).

There are several options available to you:

- Complete the Order Card in the back of this book. Please indicate the program and information in which you are interested by the program order number and publication and/or announcement letter number; or,
- Call 1 800 IBM-CALL in the United States between the hours of 8 a.m. and 7 p.m. (Eastern Time), Monday through Friday. (It'll be handy for you to have a completed Order Card for reference during the call.)
- For added convenience, complete the Order Card and fax a copy of it to us. Just call 1 800 IBM-CALL to obtain the current fax number or for assistance in placing your order.

You can also use IBMLink to access SWCATALOG, a data base of abstracts that contain information about programs offered by IBM.

---

### Place an Order at Your Convenience

To initiate your order for programs offered by IBM, just complete the Order Card at the back of the directory and drop it in the mail. Or call 1 800 IBM-CALL for order assistance and to obtain the current fax number.

---

### Give Us Your Feedback

Your requirements are important to IBM as we continue to improve the IBM Software Directory. Use the Reader's Comments Card in the back of the book to correspond with us. (IBMLink users and IBMers may send an OfficeVision or PROFS note to SWDIR at ATLVM1.) Contact your IBM representative for more information.

## Overview of Sections

- Many terms are used to describe IBM Licensed Programs. Licensed Programs means the following (including features and any whole or partial copies):
  - Machine-readable instructions
  - A collection of machine-readable data, such as a data base
  - Related materials, including documentation and listings, in any form
- In this directory, the words “software” and “programs” are used interchangeably.
- Programs announced through April 22, 1991 are included in this edition.
- Prices are current as of June 18, 1991.
- Abbreviations have been used in this volume to conserve space. There is no intent to infringe on or misuse trademarks that may be owned by other parties.

---

### Section 1. Program Keywords (green pages)

This section lists programs in an alphabetic sequence by keyword. Keywords are taken from the program title, acronym, or other associated words. The programs are listed alphabetically within the keywords.

Refer to Sections 3, 4, and 5 for more program information.

---

### Section 2. Program Clusters (yellow pages)

This section can be used as a guide to locating programs by either hardware system or application/program function (“cluster”). Two indexes are provided. The system index lists programs by application/program function within hardware type. The second index is an alphabetic listing by program cluster name. Programs listed in the system index are cross-referenced in the alphabetic cluster index. (With this edition, Cooperative Software programs have been added to the Program Clusters section.)

Refer to Sections 3, 4, and 5 for more program information.

---

### **Section 3. Program Order Number (white pages)**

This section lists information about IBM's programs, including prices, feature codes, and related announcement letters, in order number sequence. Order numbers found in the Program Keywords and Program Clusters sections provide pointers to the more detailed information in this section.

Comprehensive information about personal computer programs and Cooperative Software programs may be found in Sections 4 and 5 respectively.

---

### **Section 4. Personal Computer (PC) Programs (pink pages)**

The programs included in this section run exclusively on the following hardware:

- PC
- PS/2
- RT

Programs that can be used with the following hardware appear only in the Program Order Number (white) section:

- RS/6000
- Industrial computers (7552, 7561, GEARBOX)
- Data collection terminals (7525, 7527)
- Document processor (3890)
- Store systems (4680, 4684)
- Interconnect controller (3172)

---

### **Section 5. Cooperative Software Programs (CSP) (blue pages)**

The Cooperative Software Program allows IBM Representatives to sell software developed by non-IBM sources so that the customer can be offered the best possible solution. CSP products are listed in this section in alphabetic sequence by title. The most current announcement letter is shown for each title.

---

## **Section 1. Program Keywords**

---

## Section 1. Program Keywords

The information in this section is grouped by keywords in alphabetic sequence as a means of locating a program based on a word from the program title, acronym, or other associated information. Use the order numbers to locate the programs in the Program Order Number (white) section. Use the program titles to locate CSP and PC programs in the blue and pink sections.

**1** **Keyword** – A word taken from the program title, acronym, or other associated information

**2** **Order Number** – An order number is made up of program type (xxxx) and a three-digit program code (xxx) within that type, so a typical order number looks like 5688-103. The information in this section is presented in alphabetic order by program title within keyword.

**3** **Program Title** – The program title is the name given to the program or feature in the announcement letter. This also includes the version and release shown as VxRx (V = Version; R = Release; x = a number indicating version or release level).

The program title may be preceded by a plus or minus sign (+ or -).

+ = Program or release with first availability date later than 03/06/90

- = Program or release withdrawn from marketing

Programs that appeared with minus signs in the 1990 and earlier editions no longer appear in the directory.

## **Section 2. Program Clusters**

---

## Section 2. Program Clusters

This section can be used as a guide to locating programs by either hardware system or application/program function ("clusters").

---

### System Index

This index groups programs by application/function within hardware type. The hardware types included in the index are:

- System/370 and System/390
- AS/400
- Personal computers with OS/2
- Personal computers with DOS or AIX
- RISC System/6000
- Additional systems

The Additional Systems part of the index includes other hardware such as

- Series/1
- System/36
- System/88
- Industrial Computers

Categories within each hardware system include:

- Systems software
- Cross-industry application software
- Industry application software

Many programs are found in more than one cluster. Programs listed in this index are cross-referenced in the Alphabetic Cluster Index, which follows on page 2-9.

---

### Alphabetic Cluster Index

This index is an alphabetic listing by program cluster, which provides an additional means of locating programs. Many programs may be found in more than one cluster. See page 2-9.

## **Section 3. Program Order Number**

## Section 3. Program Order Number

This section lists information about IBM's programs, including prices, features, and related announcement letters.

**All information is subject to confirmation at the time of granting the license.** Contact your IBM representative for additional information.

---

### Notes

- IBM programs are available under the IBM Customer Agreement (Z125-4575).
- Prices are shown without cents to conserve space.
- Applicable taxes will be added to the prices.
- The announcement letter number shown is the most recent for the program. IBMLink users may access announcement letters via InfoLink.
- Programming Requests for Price Quotations (PRPQs) that have been announced in announcement letters are included in the Program Order Number section. The PRPQ order numbers begin with 5799. For more information concerning PRPQs, contact your IBM representative.
- Programs that can be used with the following hardware appear in this section:
  - RS/6000
  - Industrial computers (7552, 7561, GEARBOX)
  - Data collection terminals (7525, 7527)
  - Document processor (3890)
  - Store systems (4680, 4684)
  - Interconnect controller (3172)
- Programs that run exclusively on the PC, PS/2, and RT are listed in the Personal Computer (PC) Programs section (pink pages).

**1** **Order Number** – An order number is made up of program type (xxxx) and a three-digit program code (xxx) within that type, so a typical order number looks like 5688-103.

**2** **Program Title** – The program title is the name given to the program or feature in the announcement letter. This also includes the version and release shown as VxRx (V = Version; R = Release; x = a number indicating version or release level).

The program title may be preceded by a plus or minus sign (+ or –).

+ = Program or release with first availability date later than 03/06/90

– = Program or release withdrawn from marketing

Programs that appeared with minus signs in the 1990 and earlier editions no longer appear in the directory.

**3** **Acronym** – The acronym is a short name given to the program when it is announced. Some programs do not have acronyms.

- 5 Availability Date** – The availability date is the anticipated date of shipment as shown in the latest related announcement letter.
- 6 Service End Date** – The service end date is the date on which IBM no longer provides service and is shown for a program only if the service end date has been announced.
- 7 Service Code** – The service that IBM provides varies by program. Service codes have been assigned based on information in the announcement letter.
- A Central Service is available.
  - C Central Service is not available.
  - E Central Service is available from the IBM support structure or other source as designated in the announcement letter.
  - F Central Service is available for one year after receipt but not later than the expiration date stated in the announcement letter.
  - H Central Service is available until the date shown in the announcement letter.
  - I Central Service is available at a fee until the expiration stated in the announcement letter. The fee is waived during a specified initial period.
  - L Central Service is available, including the IBM Support Center.
  - S Central Service is available while the System Control Programming remains current (Class 2 SCP).
  - X Central Service is not available.
  - Y These programs are distributed by IBM, but the IBM logo does not accompany the product. Description of service normally is provided by the licensor.
- 8 Test Period** – Most programs have a test period of one or two months, as indicated. If the program has no test period, the field will be blank.
- 9 License Code** – IBM's programs are copyrighted and licensed (not sold). The following definitions relate to the license codes shown:
- S = Separate license – a license required for each designated machine on which the licensed program materials will be used.
  - I = Installation license – a license under which you may use the program on any other machine in the same or adjoining rooms as the designated machine
  - L = Location license – a license under which you may use the program on any other machine in the same building with the same mailing address as the designated machine
  - U = Usage restriction – a restriction specified in the program's Licensed Program Specifications or License Information
- 10 Pub** – The publication generally listed is the General Information Manual or Licensed Program Specification. If the program has no related publication, the field will be blank.

**11 Environment** – This information provides guidance as to the specified operating environment; that is, the machines and programs with which a program is designed to operate, as described in its Program Specifications manual.

**12 Charge Structure**

**Grad** = Graduated charges. These are determined according to processor group. The processor group's number appears before its associated prices. Processor groups are further defined in Appendix C.

**Tier** = Incremental Tier charges. These are product/program charges that must be increased by the branch at the point or set of points where a predefined number of end users is permitted simultaneous access to the same software licensed product/program. The customer is responsible for notifying the branch when the predefined number of users has been met or exceeded. The branch then upgrades the license charge.

As shown in the sample price calculation below, charges for a given tier are added to those of all lower tiers in order to arrive at a price.

Tier	B/O	Sample price calculation:
1	150	Tier 1 = 150
2	0	Tier 2 = 150 + 0 = 150
2*	25	Tier 2.5 = 150 + 0 + 25 = 175
3	0	Tier 3 = 150 + 0 + 25 + 0 = 175

\* If the tier number appears as “2” the actual tier number is “2.5”

**13 Price Code** – Prices are preceded by a price code. The format for the price code is X/Y:

X = License Type:    B = Basic    D = DSLO    S = Single    M = Multiple  
Y = Charge Type:    O = One Time    M = Monthly    I = Initial    A = Annual    P = Primary

**Price** – The price of the program is shown. In order to conserve space, cents have been dropped for those few programs that have them.

Some programs have graduated charges that are determined according to processor group. The processor group is shown with its associated price. Appendix C contains processor group charts for easy reference.

**14 Feature** – The program's feature code (with its associated order number) is provided and relates to the prices shown.

## **Section 4. Personal Computer (PC) Programs**

---

## Section 4. Personal Computer (PC) Programs

This section provides information about programs offered by IBM for use on a variety of personal computers. The information is presented in alphabetic sequence by program title. Part numbers, order numbers, and feature codes are provided to facilitate ordering.

All information is subject to confirmation at the time of granting the license. Contact your IBM representative for additional information.

The programs included in this section run exclusively on the following hardware:

- PC
- PS/2
- RT

Programs that can be used with the following hardware appear only in the Program Order Number (white pages) section:

- RS/6000
- Industrial computers (7552, 7561, GEARBOX)
- Data collection terminals (7525, 7527)
- Document processor (3890)
- Store systems (4680, 4684)
- Interconnect controller (3172)

---

---

**1 Program Title** – The program title is the name given to the program or feature in the announcement letter. This also includes the version and release shown as VxRx (V = Version; R = Release; x = a number indicating version or release level).

The title may be preceded by a plus or minus sign (+ or –).

+ = Program or release with first availability date later than 03/06/90

– = Program or release withdrawn from marketing

Programs that appeared with minus signs in the 1990 and earlier editions no longer appear in the directory.

**2 Part Number** – The part number is a seven-character code used when ordering the program from IBM Authorized Dealers. Where a part number has not been assigned, this field is blank.

**3 Order Number** – An order number is made up of program type (xxxx) and a three-digit program code (xxx) within that type, so a typical order number looks like 5688-103. If “\*CSP” appears in this field, find more information on the program by referring to the CSP (blue) section, in alphabetic sequence by program title.

**4 Feature** – The program's feature code (with its associated order number) is provided and relates to the prices shown.

**5 Price** – The price of the program is shown. In order to conserve space, cents have been dropped for those few programs that have them.

**6 Service Code** – The service that IBM provides varies by program. Service codes have been assigned based on information in the announcement letters.

A Central Service is available.

C Central Service is not available.

E Central Service is available from the IBM support structure or other source as designated in the announcement letter.

F Central Service is available for one year after receipt but not later than the expiration date stated in the announcement letter.

G Central Service is available for ninety days after receipt but not later than the expiration date stated in the announcement letter. Licensee must return the Service Registration card to qualify.

H Central Service is available until the date shown in the announcement letter.

I Central Service is available at a fee until the expiration date stated in the announcement letter. The fee is waived during a specified initial period.

L Central Service is available, including the IBM Support Center.

X Central Service is not available.

Y These programs are distributed by IBM, but the IBM logo does not accompany the product. Description of service normally is provided by the licensor.

**7 Test Period** – Most programs have a test period of one or two months, as indicated. If the program has no test period, the field will be blank.

**8 Availability Date** – The availability date is the anticipated date of shipment as shown in the latest related announcement letter.

**9 Environment** – This information provides guidance as to the specified operating environment; that is, the machines and programs with which a program is designed to operate, as described in its Program Specifications manual.

## **Section 5. Cooperative Software Programs**

---

## Section 5. Cooperative Software Programs

**Cooperative Software programs are not IBM licensed programs, and IBM makes no warranties or representations with respect to them.**

The Cooperative Software Program allows IBM representatives to sell software developed by non-IBM sources so that customers can be offered the best possible solution. This program permits IBM to participate in market segments where it currently does not have a software solution.

**GENERAL INFORMATION:** The employees of IBM and the program supplier can only act on behalf of their employers, and are not to be considered the agents or employees of the other party. IBM has been authorized by the program supplier only to present marketing material and to receive orders for the Cooperative Software.

The Cooperative Software supplier is solely responsible for the licensing, terms and conditions, and prices of Cooperative Software. Depending on the agreement between them, either the Cooperative Software supplier or the customer is responsible for installation, customer education, and support and maintenance. All information regarding Cooperative Software is provided by the Cooperative Software suppliers.

The Cooperative Software supplier or IBM-approved third parties may assist IBM in marketing the Cooperative Software.

**PROGRAM VALIDATION:** IBM does not validate features and functions of the Cooperative Software programs.

**TECHNICAL ASSISTANCE:** Technical assistance, installation, and usage support are as provided by the Cooperative Software supplier. The Cooperative Software supplier and/or the customer may be responsible for installation depending on the agreement between them.

**LICENSING:** All terms and conditions are provided by the Cooperative Software program supplier.

**WARRANTY:** Not warranted by IBM. Warranty, if any, is as provided by the program supplier. IBM makes no warranties, express or implied, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose. Address any questions pertaining to warranty coverage to the Cooperative Software program supplier.

**VOLUME DISCOUNT:** IBM Volume Discount Agreements are not applicable to Cooperative Software. Volume discounts, if any, are as provided by the Cooperative Software program supplier.

**EDUCATIONAL ALLOWANCE:** IBM Educational Allowances are not applicable to Cooperative Software. Allowances, if any, are as provided by the Cooperative Software program supplier.

**TESTING PERIOD:** The testing period, if any, is as provided by the program supplier.

**AVAILABILITY:** Cooperative Software programs generally are available at the time of announcement by IBM.

**SERVICE CODE:** Either the vendor or the customer is responsible for installation, customer education, support and maintenance, depending on the agreement between them.

For additional information and to order Cooperative Software, contact your IBM representative.

---

**1 Program Title** – The program title is the name given to the program or feature in the announcement letter. This also includes the version and release shown as VxRx (V = Version; R = Release; x = a number indicating version or release level).

The program title may be preceded by a plus or minus sign (+ or –)

+ = Program or release with first availability after 03/06/90

– = Program or release withdrawn from marketing

Programs that appeared with minus signs in the 1990 and earlier editions no longer appear in the directory.

**2 Announcement Letter** – The announcement letter number shown is the most recent for the program. Previous announcement letter numbers, if any, generally are listed in the most recent announcement letter.

**3 Application** – This is a brief description of the application area that the program supports.

**4 Environment** – This information provides guidance as to the specific operating environment that is required.

For additional information and to order Cooperative Software, contact your IBM representative.

## Appendix A: Acronyms

---

Acronym	Meaning
<hr/>	
<b>A</b>	
<hr/>	
ABARS	Aggregate Backup and Recovery Support
ACF	Advanced Communication Function
ACF/NCP	Advanced Communication Function/Network Control Program
ACF/SSP	Advanced Communication Function/System Support Program
ACO	Automated Console Operations
ACSE	Association Control Service Element
AD	Application Development
ADPS/M	Application Development Project Support/Application Development Model
ADPS/P	Application Development Project Support/Process Mechanism
AE	Application Execution
AEC	Architecture, Engineering, Construction
AFMT	Advanced Function Management Tools
AI	Artificial Intelligence
APF	Application Preparation Feature
API	Applications Program Interface
API/CS	Application Program Interface/Communication Services
APPC	Advanced Program-to-Program Communications
AS	Application System
AVC	Audio Visual Connection
<hr/>	
<b>B</b>	
<hr/>	
BCS	Business Communications System
BTS	Batch Terminal Simulator
<hr/>	
<b>C</b>	
<hr/>	
CAD/CAM	Computer Aided Design/Computer Aided Manufacturing
CAE	Common Applications Environment
CALS	Computer-Aided Acquisition and Logistics Support
CDR	Call Detail Records
CEDS	COPICS Engineering Data Support
CIEDS/CBDS	Computer Integrated Electrical Design/Circuit Board

---

Acronym	Meaning
	Design System
CIM	Computer Integrated Manufacturing
CIM CDF	CIM Communications and Data Facility
CIMS	Comprehension Information Management for Schools
CMAS	Construction Management and Accounting System
CMS	Conversational Monitor System
CNAT	Central Node Administration Tool
CNM	Communication Network Management
COPICS	Communications Oriented Production Information and Control System
CPCS	Check Processing Control System
CPM	Critical Path Method
CSAS	Career School Accounting System
CSP	Cooperative Software Programs
CSP	Cross System Product
CSP/AD	Cross System Product/Application Development
CSP/AE	Cross System Product/Application Execution
CSP/370RS	Cross System Product/370 Runtime Services
<hr/>	
<b>D</b>	
<hr/>	
DAM	Direct Access Method
DARPA	Defense Advanced Research Projects Agency
DBCS	Double Byte Character Sets
DBRC	Data Base Recovery Control
DBT	Data Base Tools
DCE	Data Circuit-terminating Equipment
DCF	Document Composition Facility
DCP	Document Composition Program
DDF	Distributed Data Facility
DDM	Distributed Data Management
DEDB	Data Entry Data Base
DEDB/PC	Data Entry Data Base Pointer Checker
DEDB/TA	Data Entry Data Base Tuning Aid
DEDB U/R	Data Entry Data Base Unload/Reload
DFDSS	Data Facility Data Set Services
DFHSM	Data Facility Hierarchical Storage Manager
DFP	Data Facility Product
DFSMS	Data Facility Storage Management Subsystem
DFSORT	Data Facility Sort
DISPF	Decision and Information Support Productivity Facility
DITTO	Data Interfile, Transfer, Testing and Operations
DM	Distribution Manager

---

Acronym	Meaning
DMAS	Distributors Management Accounting System
DMPX	Data Multiplexor
DMS/CMS	Display Management System/CMS
DoD	Department of Defense
DOS	Disk Operating System
DPPX	Distributed Processing Programming Executive
DPPX/370	Distributed Processing Programming Executive/370
DSNL/2	Direct S.W.I.F.T Network Link/2
DSNX	Distributed Systems Node Executive
DSLO	Distributed System License Option
DTE	Data Terminal Equipment
DTL	Dialog Tag Language

---

**E**

---

ECDB	Engineering Catalog Design Base
ECF	Enhanced Connectivity Facility
EDI	Electronic Data Interchange
EDX	Event Driven Executive
EIA	Electronic Industries Association
EMCS	Enterprise Management Control Series
EMS	Event Manager Subsystem
EP	Emulation Program
ESA	Enterprise Systems Architecture
ESSL	Engineering & Scientific Subroutine Library

---

**F**

---

FAWN	Forms Available When Needed
FBSS	Financial Branch System Services
FLSF	Font Library Service Facility
FPGP	Floating Point Graphics Protocol
FRR	Fast Reorganization Reload Utility
FSI	Financial Services Industries
FTAM	File Transfer Access & Management
FTPS	Financial Transaction Processing System
FTTERM	File Transfer and Terminal Emulator

---

Acronym	Meaning
---------	---------

---

---

**G**

---

GAM/SP	Graphics Access Method/System Product
GDDM	Graphical Data Display Manager
GFIS	Graphic Facilities Information System
GIM	Geometry Interface Module
GKS	Graphical Kernel System
GPG	Graphics Program Generator

---

**H**

---

HESC	Higher Education Software Consortium
HLLAPI	High Level Language Application Program Interface
HMC	Hybrid Microcircuits
HPO	High Performance Option
HSP	Host Support Program
HSSR	High Speed Sequential Retrieval
HSX	Host Support Extensions

---

**I**

---

IBA	Integrated Banking Applications
IDRC	Improved Data Recording Capability
IE	Information Exchange
IES	IBM Educational Systems
IFTS	International Funds Transfer System
IGES	Initial Graphics Exchange Specification
INFOREM	Inventory Forecasting and Replenishment Modules
IPDS	Intelligent Printer Data Stream
IRC	International Record Carrier
ISA	Information System for Attorneys
ISMF	Interactive Storage Management Facility
ISO	International Standards Organization
ISPF	Interactive System Productivity Facility
ISPF/PDF	Interactive System Productivity Facility/Program Development Facility

---

**K**

---

KBS	Knowledge-based System
-----	------------------------

---

Acronym	Meaning
<b>L</b>	
LAN	Local Area Network
LMF	Library Management Facility
LMU	Library Management Utilities
<b>M</b>	
MAP	Manufacturing Automation Protocol
MAPICS	Manufacturing Accounting and Production Information Control System
MAPICS/DB	Manufacturing Accounting and Production Information Control System/Data Base
MERVA	Message Entry and Routing with Interfaces to Various Applications
MERVA/2	Message Entry and Routing with Interfaces to Various Applications/2
MFS	Message Format Services
MMS	Manufacturing Message Specification
MPA	Manufacturing Performance Analysis
MPIF	Multiprocessor Interconnect Facility
MPS	Mathematical Programming System
MRI	Machine Readable Information
MSDS	Material Safety Data System
MSHF	Matrix Switch Host Facility
MVS	Multiple Virtual Storage
MVS/CNAT	Multiple Virtual Storage/Central Node Administration Tool
MVS/DFP	Multiple Virtual Storage/Data Facility Product
MVS/TSO	Multiple Virtual Storage/Time Sharing Option
<b>N</b>	
NCP	Network Control Program
NCPG-XLWS	Numerical Control Post Processor Generator Execution Library for Workstation
NCS	Network Computing System
NEC	Network Event Communicator
NETBIOS	Network Basic Input/Output System
NETDA	Network Design and Analysis
NetView DM	NetView Distribution Manager
NLV	National Language Version

Acronym	Meaning
NMVT	Network Management Vector Transport
NPM	NetView Performance Monitor
NPSI	Network Control Program Packet Switching Interface
NRF	Network Routing Facility
NSF	Network Supervisory Function
NSI	Non-SNA Interconnection
NTO	Network Terminal Option

---

## O

---

ODPS	Office and Document Processing System
ODS	Online Delivery System
OFA/VM	Office Facsimile Application/VM
OFSP	Office Support Program
OGL	Overlay Generation Language
OLR	Online Routing
OPC/A	Operations Planning and Control/Advanced
OSI	Open Systems Interconnection
OSL	Optimizations Subroutine Library
OV/VM	OfficeVision/VM

---

## P

---

PCNM	PC Node Manager
PCS	Production Control System
PCS-ADS	Patient Care System--Application Development System
PCS-ORDERS	Patient Care System--Orders
PCS-PA	Patient Care System--Patient Accounting
PCS-PM	Patient Care System--Patient Management
PDF	Program Development Facility
PDS	Partitioned Data Set
PDSE	Partitioned Data Set Extended
PHIGS	Programmed Hierarchical Interactive Graphics
PL1TEST	PL/1 Interactive Test Facility
PMF	Print Management Facility
PNA	Programmable Network Access
POSIX	Portable Operating System Interface for Computer Environments
POWER	Performance Optimization with Enhanced RISC
PSDN	Packet Switched Data Network
PSF	Print Services Facility
PWS	Programmable Workstation

Acronym	Meaning
<b>R</b>	
RACF	Resource Access Control Facility
RCF	Remote Console Facility
RDBMS	Relational Data Base Management System
RDS	Remote Data Services
RFT	Revisable Text Format
RFTDCA	Revisable Form Text Document Content Architecture
RIPSS	Retail Industry Programming Support Services
RMF	Resource Measurement Facility
RPM	Remote Print Manager
RRDF	Remote Recovery Data Facility
RSCS	Remote Spooling Communications Subsystem
RSP	Remote System Programming
<b>S</b>	
SAMON	SNA Application Monitor
SBCS	Single Byte Character Set
SCLM	Software Configuration and Library Manager
SCSE	Supercomputing Systems Extensions
SDF	Screen Definition Facility
SDLC	Synchronous Data Link Control
SDO	Sequential DAM Optimizer
SDSF	System Display and Search Facility
SEF/2	Self Education Facility on the Personal System/2
SEF/PC	Self Education Facility on the IBM Personal Computer
SFS	Shared File System
SGML	Standard Generalized Markup Language
SLR	Service Level Reporter
SMFF	SCRIPT Mathematical Formula Formatter
SMTP	Simple Mail Transfer Protocol
SMU	Space Management Utilities
SNA	Systems Network Architecture
SNA/SDLC	Systems Network Architecture/Synchronous Data Link Control
SNBU	Switched Network Backup
SP	System Product
SPCF	Service Point Command Facility
SRTOS	Special Real Time Operating System
SSP	System Support Program
STAIRS	Storage and Information Retrieval System
S.W.I.F.T.	Society for Worldwide Interbank Financial Telecommunication

Acronym	Meaning
<hr/>	
<b>T</b>	
TCP/IP	Transmission Control Protocol/Internet Protocol
TNM	Transmission Network Manager
TPF	Transaction Processing Facility
TPNS	Teleprocessing Network Simulator
TSR	Terminate and Stay Resident
<hr/>	
<b>U</b>	
UDP	User Datagram Protocol
<hr/>	
<b>V</b>	
VM	Virtual Machine
VM/CMS	Virtual Machine/Conversational Monitoring System
VM/SE	Virtual Machine/Software Engineering
VM/SP HPO	Virtual Machine/System Product High Performance Option
VM/XA SP	Virtual Machine/Extended Architecture System Product
VMPFF	Virtual Machine Performance Planning Facility
VPCA	VTAM Protocol Conversion Application
VRU	Voice Response Unit
VSE/AF	VSE Advanced Functions
VSE/PT	VSE Performance Tool
VTSS	Vocational and Technical School Series
<hr/>	
<b>W</b>	
WPC	Word Processing Choice
WYSIWYG	"What You See Is What You Get"
<hr/>	
<b>X</b>	
XA	Extended Architecture
XI	X.25 SNA Interconnection
XSI	X/Open Systems Interface

This acronym list is not inclusive and may not be entirely accurate. Many acronyms have more than one meaning, not all of which are shown here.

## Appendix B: Other Companies' Trademarks

---

### Trademarks

### and their Owners

---

---

#### A

---

*ACCELL	Unify Corporation
Accounting, Budget and Cost (ABC)	Information Systems of America, Inc.
*Adobe	Adobe Systems, Inc.
ADW	KnowledgeWare, Inc.
Advanced Visualizer	Wavefront Technologies, Inc.
Alert Monitor	Network Equipment Technologies, Inc.
All Charge 386	All Computers
*Answer/DB	Sterling Software
APS	Policy Management Systems Corporation
Arts & Letters	Computer Support Corporation
AS/Manager	Mersch-Bacher Associates (MBA), Inc.
ATI	American Training International
AT&T	American Telephone & Telegraph Company

---

#### B

---

*BACHMAN/Re-Engineering Product Set	
*BANCStar	National Financial Computer Systems, Inc.
*BANKNET	Mastercharge International
BDMX	Tonen System Plaza, Inc.
*BPS	Business and Professional Software, Inc.
BRANCHBANKER	Ampersand Corporation
Bumble Games	The Learning Company
Bumble Plot	The Learning Company
Business Graphics	Business and Professional Software, Inc.

---

#### C

---

*CADAM	CADAM INC.
*CADAM+FM	The Computer-Aided Design Group

---

\* Those trademarks with an asterisk (\*) are registered trademarks of the owners.

---

**Trademarks****and their Owners**

---

*CATIA	Dassault Systemes
CBDS	Northern Telecom Ltd.
Century Schoolbook	American Type Foundry
Children's Writing & Publishing Center	The Learning Company
CIMS	National Computer Systems, Inc.
Clasy	TBS Software, Inc.
*Cliq	Quadratron Systems, Incorporated
*COLORPLUS	Plantronics/Frederick Electronics Corp.
ConnectPac	Iona College
Consolidation Module	Chang Laboratories, Inc.
Consolidation/Link Module	Chang Laboratories, Inc.
Control Data/Redinet	Control Data Corporation
*Customizer	INTERSOLV, Inc.

---

**D**

---

*Dataflex	Data Access Corporation
DataKits	McGraw-Hill, Inc.
Data Workbench	Sybase Corporation
DEC	Digital Equipment Corporation
DEC/VMS	Digital Equipment Corporation
*DENEB	DENEB Systems, Inc.
DesignLibs	Standard Engineering Data Company
DIBOL	Digital Equipment Corporation
DIF	Software Arts, Inc.
*DXF	Autodesk, Inc.

---

**E**

---

*EASEL	Easel Corporation
Electric Desk	Electric Software, Inc.
*E-Net	E-Net
Enhanced Operator Console	Equipment Technologies, Inc.
EPS	ADOBE Systems Inc.
*Excelsior	Excelsior Software, Inc.
*Ethernet	XEROX Corporation
Excel	Microsoft Corporation
*Excellerator	INTERSOLV, Inc.
Express	Business & Professional Software, Inc.

---

\* Those trademarks with an asterisk (\*) are registered trademarks of the owners.

---

**Trademarks****and their Owners**

---

---

**F**

---

*FACTORYnet I/S	Intercim Corp.
FACT TRACK	Science Research Associates, Inc.
FIX, THE	Intellution, Inc.
FIX ACE	Intellution, Inc.
FIX DMACS	Intellution, Inc.
FMaccess	The Computer-Aided Design Group
The FORTE System	Advantage Systems, Inc.
FourGen	FourGen Software, Inc.

---

**G**

---

GEIS	General Electric Information Services Company
GMNET	General Motors Corporation
*GOLDMEDAL	Decathlon Data Systems, Inc.

---

**H**

---

Hadassah	Tetterode, Amsterdam
Helvetica	Allied Corporation
Helvetica Condensed and Expanded	Allied Corporation
Helvetica–Language Extensions	Allied Corporation
Hilo-3	Genrad, Inc.

---

**I**

---

IDNX	Network Equipment Technologies, Inc.
IGDS	Intergraph Corporation
ImageSystem	Image Business Systems Corporation
*IMSL	IMSL, Inc.
*INed	INTERACTIVE Systems Corporation
*Informix	Informix Software, Inc.
INGRES	ASK Computer Systems
*IN/ix	INTERACTIVE Systems Corporation
INmail	INTERACTIVE Systems Corporation

---

\* Those trademarks with an asterisk (\*) are registered trademarks of the owners.

---

**Trademarks** **and their Owners**

---

INnet	INTERACTIVE Systems Corporation
Intel	Intel Corporation
Intel i860	Intel Corporation
*Interleaf	Interleaf Corporation
*ITC	International Typeface Corporation
ITC Avant Garde Gothic	International Typeface Corporation
ITC Korinna	International Typeface Corporation
ITC Souvenir	International Typeface Corporation
i486	Intel Corporation
i860	Intel Corporation

—  
**J**  
—

JDE	J.D. Edwards & Company
JetForm—Design	Indigo Software, Ltd.
JSB	JSB Computer Systems, Inc.
JSB—Multiview	JSB Computer Systems, Inc.
Juggles' Butterfly	The Learning Company

—  
**K**  
—

Kermit	Henson Associates
kiNET	KI Research, Inc.
Knowledge Engine	Software Artistry, Inc.

—  
**L**  
—

LABMAN	Integrated Computer Concepts, Inc.
*Lotus	Lotus Development Corporation
*Lotus 1-2-3	Lotus Development Corporation
Lotus 1-2-3/G	Lotus Development Corporation
Lotus 1-2-3/M	Lotus Development Corporation

—  
**M**  
—

Macintosh	Apple Computer, Inc.
*MainStream	Mainstream Software Corporation

---

\* Those trademarks with an asterisk (\*) are registered trademarks of the owners.

<b>Trademarks</b>	<b>and their Owners</b>
Main/Tracker	Elke Corporation
MAP	General Motors Corporation
*Micro CADAM	CADAM INC.
Micro CADAM PLUS	CADAM INC.
*Microsoft	Microsoft Corporation
MIMIX	Lakeview Technology, Inc.
MLPS	ALE Systems
Monotype	Monotype Corporation, Ltd.
Monotype Bodoni Cyrillic	Monotype Corporation, Ltd.
Monotype Century	Monotype Corporation, Ltd.
Monotype Garamond	The Monotype Corporation, plc.
Monotype Garamond–Language Extensions	Allied Corporation
Monotype Levenim	Monotype Corporation, Ltd.
Monotype Old English Text and New Berolina	Monotype Corporation, Ltd.
Monotype Rockwell–Language Extensions	Allied Corporation
Monotype Times New Roman Cyrillic	Monotype Corporation, Ltd.
Motif	Open Software Foundation
MUMPS	Massachusetts General Hospital
<hr/>	
<b>N</b>	
<hr/>	
NAP	Carl Venderback and Associates
*NetWare	Novell, Inc.
Network File System	Sun Microsystems, Inc.
NewsEdge	Desktop Data, Inc.
*NFS	Sun Microsystems, Inc.
<hr/>	
<b>O</b>	
<hr/>	
OCM24	Software Development and Maintenance International, Inc.
OfficeManager	Mersch–Bacher Associates (MBA), Inc.
O.N.E.	Tele-Denken Resources, Inc.
ORACLE	Oracle Corporation
Oron	A. Oron

\* Those trademarks with an asterisk (\*) are registered trademarks of the owners.

---

**Trademarks****and their Owners**

---

---

**P**

---

*PageMaker	Aldus Corporation
PC Expert Professional	Software Artistry, Inc.
*PC Prism	Index Technology Corporation
PC Tools Deluxe	Central Point Software
*PHARMAKON	Continental Healthcare Systems, Inc.
*PINSTRIPE	Lawson Associates, Inc.
PORTFOLIO	Tele-Denken Resources, Inc.
*PostScript	Adobe Systems, Inc.
PRECISE	Electrical Engineering Software
Predictor	Management Sciences Incorporated
*PRISM	INTERSOLV, Inc.
*Professional CADAM	CADAM INC.

---

**Q**

---

*QMS Programs	John A. Keane and Associates
*Quattro	Borland International Inc.

---

**R**

---

*Rational	Rational
REALCOLOR	Micro Developed Systems, Inc.
*RETAIL INTERACT	DeKellis and Associates, Inc.
RM/COBOL	Ryan-McFarland Corporation
ROLM	ROLM Corporation

---

**S**

---

S2000 Service Management System	Service Systems International, Ltd.
*SAMNA	SAMNA Corporation
SAMNA PLUS IV	SAMNA Corporation
*SAS	SAS Institute, Inc.
Series III	Policy Management Systems Corporation
SNAP	SNAP Software, Inc.
*Soft-Switch	Soft-Switch, Inc.

---

\* Those trademarks with an asterisk (\*) are registered trademarks of the owners.

<b>Trademarks</b>	<b>and their Owners</b>
*Software Carousel	Softlogic Solutions, Inc.
Software BackPlane	Atherton Technology
SoftWIRES	Tele-Denken Resources, Inc.
Souvenir	International Typeface Corporation
*SPANS	INTERA TYDAC Technologies, Inc.

## Appendix C: Processor Groups for Graduated Charges

---

### AS/400

---

#### Group C5

Machine Type: 7012 7012 7012  
Model: 320 32H 32E

---

#### Group D5

Machine Type: 9402 9404 9404  
Model: 320 32H 32E

---

#### Group D5

Machine Type: 9402 9404 9404  
Model: 320 32H 32E

---

### RISC System/6000

---

#### Group E5

Machine Type: 7012 7012 7012  
Model: 320 32H 32E

---

#### Group F5

Machine Type: 7013 7013 7013 7013 7013 7016  
Model: 520 530 540 550 55S 730

---

#### Group G5

Machine Type: 7015 7015 7015  
Model: 930 950 95E

---

\* The letter "x" means any alphabetic or numeric character. The symbol "@" means any alphabetic or numeric character except "X".

---

**Processor Groups for Graduated Charges**

---

---

**System/370 and System/390**

---

---

**Group 10**

---

Machine Type: 3315 3125 3135 3138 3145 3148 4321 4331 4341 4361 9373 9373 9375
